Высокоскоростные центрифуги Avanti J-E

Уникальная конструкция высокоскоростной центрифуги Avanti J-E позволяет ей разгоняться до значительных скоростей и отлично разделять компоненты образца. При этом инструмент очень компактен.

- до 21 000 об/мин
- до 53 300 x g
- макс. вместимость: 4 л
- от - 10°C до + 40°C
- Размеры Ш x Г x В: 635 x 800 x 914 мм

Быстрое разделение

- Сокращение времени центрифугирования за счет режимов ускоренного разгона/торможения
- Оптимальные высота центрифуги и форма передней панели позволяют легко устанавливать и извлекать роторы
- Вентильно-индукторный бесщеточный двигатель (SR)

Защита образца

- Настройка и контроль температуры для поддержания целостности образца
- Богатая библиотека роторов для безопасного переноса образцов
- Удобные аксессуары и расходные материалы

Конструкция и безопасность

- Компактная и мощная – подойдет даже для самых маленьких лабораторных помещений
- Автоматическое определение типа ротора на низких скоростях
- Автоматическая перенастройка максимальной скорости, если определенный тип ротора не совпадает с заданным

Энергосбережение

- Низкий уровень теплоотдачи и эффективное использование электроэнергии
- Пониженное трение ротора за счет вакуума (не требует обслуживания) снижает электропотребление

Технические характеристики высокоскоростной центрифуги Avanti J-E

BioSafe	Да
Разгон	2 profiles, Maximum (full acceleration to set speed) & Slow
Торможение	3 profiles (max, slow & off (coast))
Время	1 min to 99:59 hrs, Hold
Максимальная вместимость	1 - 4 L
Temperature Control	± 2 ° C °C of set temperature after equilibration
Temperature Range(s)	From -10°C to +40°C in 1° increments
Item Specifications Referenced	369003

Avanti® J-E Centrifuge, 50 Hz, 200 V, 24 A

Артикул:369005

If you need a high performing centrifuge for a tight space, this one is “the fittest.” The J-E Centrifuge generates maximum speeds up to 21,000 RPM (53,300 x g) and offers the capacity of processing up-to 4 liters in under 10 minutes. The J-E's high torque switched reluctance (SR) direct drive achieves faster acceleration and deceleration with gentle precision that delivers the fastest separations in the shortest run times, performance unattainable by standard high-speed centrifuges. The comprehensive standard and BioSafe-certified J-series rotors and labware are all compatible with the J-E, for sample sizes from a few microliters up-to 4 liters. For total versatility, select the new AllSpin JS-5.3 high capacity swinging bucket rotor system, which processes up-to twenty-four 96-well microtiter plates and offers the flexibility of processing a variety of sample sizes in bottles from 4 x 500 mL to 96 x 17 mm tubes. Using CFC-free refrigerants and a maintenance-free vacuum pump to partially remove friction-generating air molecules, the J-E offers better temperature control (-10° C - +40° C in 1° C increments), a more energy efficient system, lower heat output (< 6,900 BTUs) and quieter operation for a comfortable, productive work environment.

Платформа	Avanti
Максимальная скорость	21,000 rpm
Максимальное ускорение	53300 xg

BioSafe	Да
Acceleration	2 profiles, Maximum (full acceleration to set speed) & Slow
Deceleration	3 profiles (max, slow & off (coast)
Timed Run	1 min to 99:59 hrs, Hold
Max Capacity Volume Range	1 - 4 L
Refrigeration System	Non-CFC, non-ozone depleting refrigerant
Drive Type Cooling	Air-cooled
Temperature Range(s)	From -10°C to +40°C in 1° increments
Zonal Capability	Да
Pollution Degree	2
Environmental Conditions	-10°C to 40°C in 1° increments
Installation Category	II
Software	Virtual Network Computing (VNC), Mobile Fuge app for Apple iOS and Android
Material(s)	Steel, Structural Foam
Finish	Control panel finish: Silicone elastomer
Weight	267.4 kg(589.5 lb)
Width	63.5 cm(25 in)
Depth	80 cm(31.5 in)
Height	91.4 cm (152.4 cm with door open)
Clearances	7.6 cm (sides) & 16 cm (rear)
Humidity Restrictions	< 95% (non-condensing)

Power Requirements

230 VAC, 50/60 Hz

Avanti® J-E BioSafe Centrifuge System, 50/60 Hz, 200 V

Артикул:A20699

As the highest performer of the J high-performance series, the J-E BioSafe Centrifuge generates maximum speeds up to 21,000 RPM (53,300 x g) and offers the capacity of processing up-to 4 liters in under 10 minutes. The J-E's high torque switched reluctance (SR) direct drive achieves faster acceleration and deceleration with gentle precision that delivers the fastest separations in the shortest run times, performance unattainable by standard high-speed centrifuges. The J-E is compatible with the comprehensive J series standard and BioSafe-certified rotors and labware for sample sizes from a few microliters up-to 4 liters. For total versatility, select the new AllSpin JS-5.3 high capacity swinging bucket rotor system, which processes up-to twenty-four 96-well microtiter plates and offers the flexibility of processing a variety of sample sizes in bottles from 4 x 500 mL to 96 x 17 mm tubes. The J-E's compact build gives you the freedom to place it wherever you need it. Using CFC-free refrigerants and a maintenance-free vacuum pump to partially remove friction-generating air molecules, the J-E offers better temperature control (-10° C - +40° C in 1° C increments), a more energy efficient system, lower heat output (< 6,900 BTUs) and quieter operation for a comfortable, productive work environment.

Avanti® J-E BioSafe Centrifuge System, 50/60 Hz, 200/208/240 V

Артикул:969352

As the highest performer of the J high-performance series is ideal for those sharing lab space with others. The J-E BioSafe Centrifuge generates maximum speeds up to 21,000 RPM (53,300 x g) and offers the capacity of processing up-to 4 liters in under 10 minutes. The J-E's high torque switched reluctance (SR) direct drive achieves faster acceleration and deceleration with gentle precision that delivers the fastest separations in the shortest run times, performance unattainable by standard high-speed centrifuges. The comprehensive J series standard and BioSafe-certified rotors and labware are all compatible with the J-E, for sample sizes from a few microliters up-to 4 liters.
